

Nurit 292

The Nurit PIN pad 292 is designed to process your transactions quickly and securely. This multi-functional PIN pad offers comprehensive security and fast transaction processing. Its tamper-resistance, tamper-evident, and tamper-responsive security methods protects users from fraudulent intrusion and corruption. The Nurit PIN pad 292 can destroy all keys and other sensitive data immediately upon detecting invasion. The security features of the Nurit 292 are selected according to specific customer needs and meet the highest international standards set by Visa®, MasterCard®, and ISO 9564. This PIN pad supports all major payment types, offers a range of applications, and easily interfaces with peripheral devices. It is also compatible with all Lipman terminals, ECRs, and third party POS systems making it the ideal solution for any merchant's processing needs.

Nurit 292

Features:

- ▶ Handles all major payments – including EMV, debit and credit transactions.
- ▶ Supports loyalty, customer identification, and electronic cash.
- ▶ Interfaces easily with POS terminals and electronic cash registers.
- ▶ Tamper-resistant, tamper-evident and tamper-responsive.
